

Tick Performance Custom Camshaft Information Sheet

Thank you for your interest in a Tick Performance Custom Camshaft by in-house camshaft expert Martin Smallwood! Please fill out this form as completely as possible, as the more information you can give us about your setup, the better we can put together a camshaft that will meet (and hopefully exceed) your goals. Custom camshafts are a science, so if you're not sure about many of these answers, perhaps one of our Elite Series Camshafts would be best for your application. When you're finished, you can either fax this form to us at (336)719-2747, or scan and email it to martin@tickperformance.com. If you have any questions about completing this form, please don't hesitate to call us for assistance!
